

Summary report as per regulation no 2017/576 for AS SEB Pank

Year: 2018

Instrument class: Exchange traded products (ETF, ETN, ETC)

Execution factors

The execution factors listed below indicates the order of relative priority, which typically was given to them. However, a variety of criteria was taken into account when assessing their prioritization in relation to circumstances for each specific transaction.

- The price at which it is likely to be executed and the costs which will be incurred;
- The speed and likelihood of both execution and settlement;
- The size and nature of the Order and its impact on the market;
- Any other factor, which SEB considers relevant to the execution of the Order and in the best interest of the client.

No other criteria than price and cost were given precedence when executing retail orders.

Venues

SEB did not have any close links to any execution venue (no common ownership) that could impose any conflict of interest.

SEB did not have any specific arrangements with any execution venue regarding payments made or received, discounts, rebates or non-monetary benefits other than general discounts or rebates that trading venues offer in their public fee list (e.g. rebate of trading in blue chips shares).

No change was made in the list of execution venues during year 2018.

SEB do not use any data or tools relating to the quality of execution, including any data published under Delegated Regulation (EU) 2017/575.

Clients

There has been no differentiation between different clients according to client categorization when it comes to order execution arrangements.
